# OUR SPECIALISATION

Our Bathroom Fittings & Accessories go under an extra ordinary process of electroplating in which they are layered with 12 micron units of nickel & chrome coating which gives more grace & more life to our products.

Our new moving Honeycomb Aerator is the next big thing in the market. Contradicting its small size, our new rotating aerator is going to bring a huge change in the lives of our customers.

This aerator is newly designed for the comfort of our customers as it can be moved into any direction 360° degree & the flow of the water can easily be changed by 3-4 inches in any direction, be it right to left or up to down that too with just the ease of your finger tips.
